

MRM ELSI Committee - Terms of reference

Mandate

The MRM Network is committed to develop and sustain impactful actions in ELSI related to regenerative medicine research and its clinical application. The main objectives of the ELSI Committee are to build bridges between basic/clinical research and ELSI research; to maintain and expand McGill's international footprint in the bioethics of regenerative medicine; to simplify the understanding of the Health Canada ethics guidelines for regenerative medicine clinical trials; as well as to engage the public in the social issues of regenerative medicine.

Specific areas of responsibility

- Inform the MRM community about the latest developments in ELSI relating to regenerative medicine
- Advise MRM members regarding the current ethics guidelines for regenerative medicine research

Composition

The MRM Network ELSI Committee is composed of faculty and trainee members, drawn from membership of the network. Each member is nominated for a 2-year term, renewable.

Recurrence of meetings

The MRM ELSI Committee does not hold regular meetings but can be called upon to meet if needed.
