

MRM Education Committee - Terms of reference

Mandate

The MRM Education Committee works on the identification and development of an educational platform for the MRM. These include courses and programs to prepare students to work or do research in the domains of stem cell biology and regenerative medicine, as well as development of links within the regenerative medicine community at McGill and its affiliated hospitals to facilitate such educational programs at the undergraduate and graduate levels.

The Education Committee created a [15-credit graduate certificate](#) within the Division of Experimental Medicine, which is now being transitioned into an MSc option. This will allow graduate students at McGill University to focus on topics relevant to stem cell biology and regenerative medicine.

Specific areas of responsibility

- Develop the educational mission of the MRM
- Ensure implementation of the educational mission
- Identify and/or develop courses offered at McGill relevant to regenerative medicine
- Serve as liaison with the Departments running programs created by the MRM

Composition

The MRM Education Committee is composed of faculty and trainee members, drawn from membership of the Network. Each member is nominated for a 2-year term, renewable.

Recurrence of meetings

The MRM Education Committee holds between 2 and 4 meetings/year.
